MULTI-CHANNEL CAMPAIGNS

When you engage in a multi-channel campaign via one of our annual partnerships – the entire resources of Commodities People are put to work in supporting your business goals across the year – we become an extension of your own marketing and sales efforts for a fraction of the cost of developing similar resources in-house.

Some of the main benefits of this approach include:

- **Year round thought leadership, brand visibility, lead generation** – ongoing, rather than just a one off 2 day event
- **Achieving the above, through multiple local, regional and international channels** – providing easy access to new markets, and a level of diversity in lead generation chosen by you
- **Highest positioning at our long running in-person events** – including demonstrating industry prominence via branding as a category lead
- **Being assigned an account manager, working with you throughout the year to ensure your goals are being met** – in addition to fulfilling your agreed partnership activities we will also ensure you receive ad hoc introductions to your key prospects within our network, become part of our ongoing speaker rosters, and are generally supported in every way; including general market intelligence, talent acquisition and much more.
- **Timings that work for you** – set your key activities based on times which best support your key messages, product launches and activities throughout the year – as opposed to being tied to 1 date.
